### **An Overview of SERU 2014 Results:**

The Student Experience in the Research University (SERU) survey provides important feedback from students about their level of satisfaction, engagement, educational achievements, goals, and the perceptions of the academic and student life environment at Rutgers-Camden. It is important to recognize that SERU responses, like many large scale student surveys, are often viewed as indirect measures of student outcomes. However, these survey responses from students still provide important empirical information about how they view their student experience at Rutgers and its components (schools, majors, etc.); these responses can assist in the effort to improve the overall student environment of the university. Moreover, the SERU survey results provide an important assessment about how well Rutgers-Camden is doing in improving key critical priorities.

The following report includes pie charts that highlight specific information reported by students at your school, and Rutgers-Camden. Additionally, comparative breakout tables between an individual school and Rutgers-Camden respondents across various aspects of student satisfaction, engagement, time allocation, and motivations for major selection by gender, ethnicity, enrollment status and class level are reported. Breakouts by major were also reported for each individual school without the Rutgers-Camden comparison.

This report was prepared by Victoria Porterfield at the Office of Institutional Research and Academic Planning. For any questions, please contact her directly at [Porterfield@instlres.rutgers.edu](mailto:Porterfield@instlres.rutgers.edu).
